

Taking a Bite out of the Competition!

Hi-Line Storage Systems

Drive In & Storage Rack Systems

Welcome to The Bulldog Rack Company!

Bulldog Rack is proud to be the manufacturer of the Hi-Line series of storage rack. Hi-Line is well known for its durability and innovative design. Bulldog offers H-Line systems as well as individual components.

FEATURES & BENEFITS OF HI-LINE RACK

1" vertical adjustability utilizing round holes. The connector mates **9/16" diameter pins** with the round holes.

Hi-Bolt retainer completes the connection providing ease of installation as well as strength.

Aisle frame with the **front post doubled past the first shelf**, a **deflector foot** and **heavy bottom horizontal** on Drive-In systems.

Space saver arms attach to rail through the vertical leg providing extra clearance for the pallets being stored.

The **deflector foot** protects the aisle-side anchor and is attached to a **3/8" thick base plate** drilled to accept a **5/8" anchor**.

Our professional engineers and outstanding sales staff work together with our dealer network to design a storage plan that fits all your unique warehouse needs. Our production team, equipped with state-of-the-art machinery in our 250,000 sq. ft. facilities, proudly produces high quality products for you.

Drive-In Drive-Thru Rack

Drive-in/drive-thru racks are the solution to high density bulk storage needs. We custom design every system to accommodate specific needs for the best possible usage of space. The systems are free standing with no ties to walls or ceilings required. drive-in/drive-thru systems are available using either Hi-Line or structural components.

Powder Coated Finish & Color Selections:

Bulldog's Powder Coated finish is applied electrostatically, and then baked to provide our products with a durable and beautiful high gloss finish that is the best in the industry. Our powder coat finish is superior to our competition's wet spray or dip, and the quality high-gloss finish is free of unsightly paint runs.

Bulldog offers the largest selection of color finishes in the industry, allowing customers to mix and match the colors to create a pleasing work environment for their employees.
